Quality Learning Environment

We will be recognizing Hats On for Mental Health Day on May 6th as an opportunity to raise awareness and show support for mental health within our school community. We understand that mental health challenges affect many individuals, and addressing these needs has become increasingly important in today's society.

To support student well-being, we are fortunate to have a dedicated Wellness Support Worker, Carmen, who works closely with students each day to provide guidance, care, and individualized support. In addition, our school division has implemented a range of supports for students and families, including access to counselling services.

Inclusion remains a fundamental priority in our school. With the support of our Learning Support Team (LST), staff are equipped to provide inclusive and differentiated instruction that meets the diverse needs of all learners. Our educators are committed to meeting students where they are in their learning journey and supporting them in making meaningful progress toward success.

We believe that schools should be environments where every student has the opportunity to learn, grow, and succeed, regardless of the challenges they may face. Our teachers strive to create high-quality learning environments and provide the necessary tools and supports to help each student achieve their full potential.
